

# Meridian Technical Sales Inc.

Manufacturer's Sales Representative for Electronic Components

---

**AEG**  
Power Solutions

Standard and Custom High Power Front End Supplies. Applications include Telecom, Networking, Datacenters, Wireless Base Station, and Solid State Lighting.

  
austriamicrosystems  

**AustriaMicroSystems:** High Performance Analog Solutions: A/D & D/A Converters, DC/DC Step-up Converters, Analog Switches, Audio Amplifiers, MP3 Audio Player ICs, Digital Potentiometers, Comparators, Microprocessor Supervisor Circuits, Low Dropout Voltage Regulators, multiple application LED Drivers for lighting and backlighting, Rotary and Linear Magnetic Encoders, Custom Mixed Signal ASIC and Foundry services. **TAOS** Light to Voltage Sensors, Light to Frequency Sensors, Linear Sensor Arrays, Ambient Light Sensors, Color Sensors, Color Reflective Sensors.

  
  
Kyocera Electronic Devices

**AVX:** Ceramic, Tantalum, Niobium Oxide, and Film capacitors, Resistive components, Circuit Protection devices, RF, Microwave, Filters, Fuses. Large power capacitors for Inverters, and charging stations.

**ELCO Connectors:** IDC and LED lighting connectors. Battery connectors.

**Kyocera Electronic Devices:** Manufacturer of high quality Crystals, Oscillators, TCXO's, VCXO's, Crystal Filters, and SAW Oscillators and Filters.

**Kyocera connectors:** Board to Board, wire to Board, FPC connectors.

Heatsink design and prototyping. Custom and standard products. Smart-clip Heatsinks for BGA Semiconductor packages. Solid state Lighting, Telecom, Medical, and Industrial.

**Ericsson Power Modules:** Board mounted DC/DC products. High Efficiency and Reliability provide excellent solutions for demanding applications in Telecom, medical, avionics, computing, and industrial applications. Bus converters to Point of load, Isolated and non-Isolated.

**Sensors:** Accelerometer, Current, Fiber Optic, Force, Hall Effect, Humidity, InfraRed, Liquid Level, Mass Airflow, Position, Potentiometers, Pressure, Proximity, Speed, Thermistors, Heaters, Temperature, Thermocouples, Turbidity, Ultrasonic.

**Electromechanical Devices and Switches:** Indicators, Keyswitches, Pressure Switches, Limit and Enclosed, Pushbuttons, Relays, Rockers, Thermal, Toggles.

**Magnetic Sensors:** Honeywell magnetic sensors are based on our anisotropic magnetoresistive thin film technology. The product line includes a broad product offering of magnetic sensors, magnetometers, compasses and dead reckoning modules.

Custom and off-the-shelf enclosures. High volume stamped chassis/assemblies. ATCA, VME, and Compact PCI. Custom backplane design and production. **Schroff** brand subracks, cases, systems and cabinets. **Calmark** brand guides, card-loks, retainers, extractors, card pullers, connector accessories, PCB handling trays. **Birtcher** brand printed circuit board card guides, Extractors, and conduction cooled frames for VME, CompactPCI®, PMC applications.

Unique transfective, low power LCDs panels. Readable in any light, including direct sunlight. Render quality full-color images, full-motion video, and high screen brightness like regular LCDs at a significantly lower power.

High Reliability, cost effective power supplies. Leveraging its heritage from **Ault** and **Condor**, SLPower has you covered inside and out with Internal, and External Medical Power Supplies. Industry leading technology and support. Trust in SLPower for your critical Medical and Industrial Power applications.

Hi Voltage EL Backlight Drivers, PWM Controllers, Telecom Ringers and Switches, High Voltage Switches, Analog Muxes, Drivers, and Depletion, Enhancement, and low threshold MOSFETs; for use in the telecom, networking, and medical electronics industries.
