

# Meridian Technical Sales Inc.

Manufacturer's Sales Representative for Electronic Components

---

**AVX:** Ceramic, Tantalum, Niobium Oxide, and Film capacitors, Resistive components, Circuit Protection devices, RF, Microwave, Filters. Elco brand Connectors.

**Kyocera Electronic Devices:** Manufacturer of high quality Crystals, Oscillators, TCXO's, VCXO's, Crystal Filters, and SAW Oscillators and Filters.

Heatsink design and prototyping. Custom and standard products. Smart-clip Heatsinks for BGA Semiconductor packages.

**Sensors:** Accelerometer, Current, Fiber Optic, Force, Hall Effect, Humidity, InfraRed, Liquid Level, Mass Airflow, Position, Potentiometers, Pressure, Proximity, Speed, Thermistors, Heaters, Temperature, Thermocouples, Turbidity, Ultrasonic.

**Electromechanical Devices and Switches:** Indicators, Keyswitches, Pressure Switches, Limit and Enclosed, Pushbuttons, Relays, Rockers, Thermal, Toggles.

**Magnetic Sensors:** Honeywell magnetic sensors are based on our anisotropic magnetoresistive thin film technology. The product line includes a broad product offering of magnetic sensors, magnetometers, compasses and dead reckoning modules.

**Ericsson Power Modules** designs and manufactures DC/DC products with focus on the communications industry for advanced applications such as radio base stations and switches/routers. The levels of technology, ruggedness, and reliability of **Ericsson Power Modules** products provide excellent solutions for other demanding applications in medical, avionics, computing, military, space, and industrial market sectors.

N2Power designs and manufactures small, efficient open-frame switching power supplies based on patented technology. Its products are engineered for applications where cost, space, packaging, electrical consumption and heat dissipation are important considerations.

Custom and off-the-shelf enclosures. System integration services. Outdoor aluminum enclosures. High volume stamped chassis/assemblies. Custom backplane design and production. Schroff brand subracks, cases, systems and cabinets.

LCD Displays from 2" to 65", Optoelectronics, Image sensors, Optocouplers, RF/IR components, LEDs, Laser Diodes, WiFi/Bluetooth modules, Flash Memory, LDO and Switching Regulators.

EL Backlight Drivers, PWM Controllers, Telecom Ringers and Switches, High Voltage Switches, Analog Muxes, Drivers, and Depletion, Enhancement, and low threshold MOSFETs; for use in the telecom, networking, flat panel displays, and medical electronics industries.

Integrated Optoelectronic products. Light to Voltage Sensors, Light to Frequency Sensors, Linear Sensor Arrays, Ambient Light Sensors, Color Sensors, Color Reflective Sensors.
