

Meridian Technical Sales, Inc.

Manufacturer's Sales Representative for Electrical Components

AVX Corporation is a leading international manufacturer and supplier of electronic passive components, interconnects, sensors, and control solutions www.avx.com

- Polymer Tantalum, Supercap, Ceramic, and Power Film Capacitors
- ELCO Connectors: IDC and LED lighting connectors

Enedo Power: Born from the brands of EForeE, Roal and Powernet. AC/DC power supplies and LED Drivers are designed for high reliability and efficiency, meeting the exact needs of a wide variety of applications, including LED Lighting, Medical, and Industrial. www.enedopower.com

Elo Touch Solutions product portfolio includes a broad selection of interactive touchscreen displays from 10-70 inches, all-in-one touchscreen computers, OEM touchscreens, touchscreen controllers and monitors www.elotouch.com/embedded-oem-solutions

- Original inventor of the touchscreen with 400 patents and the broadest touch technology portfolio in the industry today (Surface Acoustic Wave, Projective Capacitive, Surface Capacitive, Infrared and Resistive)
- Available as standard or custom solutions

Flex- Power Modules, formerly Ericsson, is a division of Flex Power that primarily designs and manufactures scalable power supply solutions that improve the operational efficiencies of advanced data center, IT information and communications networks. www.flexpowermodules.com

- Point-of-load regulators, 6 A to 120 A Board power management

GP Batteries is a global supplier of primary and rechargeable batteries, under its own GP brand or custom OEM. High Performance, Reliable, Efficient. www.gpbatteries.com

- Primary cylindrical, primary specialty, and industrial primary battery packs
- Lithium Ion, Alkaline, and Carbon Zinc

Kyocera is a leading supplier of Crystals, Oscillators, Ceramic Capacitors, and Fine Pitch connectors for consumer and mobile applications. www.global.kyocera.com

- Crystals, Oscillators, TCXO's, VCXO's, Ceramic Capacitors, and Fine Pitch Connectors

Nexperia, formerly NXP standard products, is a dedicated global leader in Discrettes, Logic, and MOSFETs, as well as ESD Protection devices. A global leader recognized for Technology, Quality and Supply. www.nexperia.com

Nextinput is the market leader in MEMs based force-sensing solutions for touch enabled devices in markets such as consumer, wearable, IoT, automotive, industrial, and medical. www.nextinput.com
Replace Capacitive & Mechanical Buttons/ Under Glass or Display/ Input Agnostic

Panthronics is an independent provider of differentiated wireless solutions and the only independent provider for NFC. Our Mission is to enable and simplify challenging connectivity use cases in Mobile, IoT and Automotive through innovative ground up design. <https://www.panthronics.com/>

Reactive Reality is an augmented reality (AR) engine that enables users to experience a wide range of products before buying them. Our technology allows users to immerse themselves into AR scenes with apparel, objects and landmarks, and furnish and decorate their own places. <https://www.reactivereality.com/>
